Interests & Hobbies :

I am an adventurous person, and my hobbies include scuba diving, massaging, cooking, and learning new things such as art and anything in the creative field. I love working with people and being part of a team. Staying active and healthy is important to me, however, I also do enjoy relaxing with a good movie or book.

I personally thrive in a team environment and love socialising with friends. My favourite thing to do is to go and see live music, particularly festivals. I enjoy practicing mindfulness at home and love keeping fit with both cardio and weight lifting. I thoroughly enjoy spending time and looking after my Niece and Nephew who are both under the age of 4, it enables me to have fun and teach. I like reading fictional stories and finds this helps me wind down. I am a lover of wine and would like to further my knowledge about this in time.

Previous Work :

The Interior Crew course I have recently completed was taught by a very experienced ex Stewardess who worked on board superyachts for 7 years. This was a great experience as we could ask and learn about detailed requirements of the job and life on board. The training introduced me to a multitude of activities; laundry and the processes on board (washing, ironing, folding techniques and packing for guests), cleaning (products and their uses and to what standard), housekeeping (including bed making and turnaround) and Silver Service training (including napkin folding variations). One evening we held a cocktail event where myself and the other trainees prepped the event (including flower arrangements) and made and served cocktails to guests throughout the evening as well as serving canapes. We also got to spend an afternoon with a Wine Merchant who taught us how to taste wine, the various grapes and how to choose the best wine to compliment specific foods. I am now looking to take what I have learnt from this course and further develop the skills and knowledge needed to be a successful Stewardess.
